October 1, 2018

To: Subscribers and Church Treasurers and Church Governing Authority

We continue to pray wisdom and peace over you as you navigate the news that was shared in the letter from the United Brethren Association office dated September 20, 2018. We understand the challenging nature of the news that was shared with you regarding your current insurance plans secured through the United Brethren Association for Church Development.

Because the UB Association is called to operate under specific legal mandates, it was necessary to notify you of the information that was received. The UB Association has also been advised that a formal certificate needs to be issued to all of our subscribers that indicates the same. This certificate is included as an enclosure with this letter if the certificate is applicable to you as a subscriber.

Since the original letter dated September 20 was created, there have been some additional developments in the conversations being had with the United Brethren Association office. We are in frequent communication with Bishop Feters, and together, we are working with legal counsel to more deeply understand the reasoning behind our inability to renew the contract for health insurance products. It is our hope that our voice will be heard and our ministry will be seen as a Church Group Health Plan. We are doing what we can do to understand the ability to provide you with the health care products that you need. The message from the office of Bishop Feters is to keep doing what you can to understand your options and we will keep doing what we can to learn if there are options that we can continue to provide.

Right now, we can all pray. Please pray for clarity and wise counsel. Please pray for swiftness in communication. Please pray for known outcomes that will meet the desires of our hearts. We stand with you and will continue to search for resolution.

Praying,

Michael Allen Mudge
Board President

Angela M. Monn
Executive Director
